Purpose

The purpose of this policy is to outline the requirements of continuing education that must be met by optometrists in the three-year continuing education cycle: January 1, 2021 to December 31, 2023.

Participation in Continuing Education

As per the [Optometry Act, 1991. O. Reg. 119/94](#), a key component of the College's Quality Assurance Program is mandatory Continuing Education (CE). Optometrists are required to participate in the CE component to ensure their continuing competence and quality improvement, to address changes in practice environments, and to ensure they remain current with changes in technology, scope and standards of practice.

Current Cycle

The current cycle runs from January 1, 2021 to December 31, 2023.

Optometrists must complete a minimum of **seventy (70)** credit hours of continuing education related to the maintenance of their standards of practice or continuing competence by the end of the three-year cycle.

Breakdown

Of those 70 hours, an optometrist must complete:

- **a minimum of 50 (fifty)** hours of Council on Optometric Practitioner Education (COPE) accredited CE;
 - **20 (twenty)** of those COPE accredited hours must be in topics reasonably related to ocular disease and management or related systemic disease;
 - an optometrist may claim **30 COPE-equivalent hours** during the cycle a Fellowship or Diplomate in the American Academy of Optometry (FAAO) or Fellowship in the College of Optometrists in Vision Development (FCOVD) is awarded; and
- **the remaining 20 (twenty)** hours may be obtained by completing COPE accredited CE or other learning opportunities, which give optometrists a wider range of options and the opportunity to make flexible selections that suit their learning needs and practice.

A participation verification certificate must be issued for COPE accredited CE activities.

For other learning opportunities, optometrists must complete the 'Continuing Education: Other Learning Opportunities' form, which requires the following information:

Although the College recognizes the value in trade show participation, this activity does not qualify for CE.

Reporting of Hours

Optometrists must **self-declare completion** of CE requirements on their **Annual Report** at the end of the three-year cycle (2023).

Optometrists must **also submit all CE credit hours to OE TRACKER**. It is the responsibility of the optometrist to claim only credit hours that is relevant to their maintenance of practice and/or continuing competence. Some CE providers send COPE accredited attendance information directly to OE TRACKER. Otherwise, the optometrist must submit their own certificates for COPE accredited CE activities. For other learning opportunities, optometrists must submit completed [‘Continuing Education: Other Learning Opportunities’ forms](#) to OE TRACKER. The College will verify optometrists’ reporting hours through individual OE TRACKER profiles. It is incumbent upon optometrists to ensure that their OE TRACKER profiles are up to date, particularly toward the end of the CE cycle.

Deficiency Audit

The College will perform a deficiency audit at the conclusion of this three-year reporting cycle. The deficiency audit identifies those who fail to meet the CE hour requirement.

As per the *Optometry Act*, the Registrar is required to refer optometrists who fail to acquire the required number of CE credit hours to the Quality Assurance Committee for a practice assessment. As such, optometrists found to be deficient in CE hours based on the breakdown above will be required to participate in a practice assessment at their own cost according to the College’s Schedule of Fees and Penalties.
